

**The Future of Disc Care &
Repair is Here Today!**

Azuradisc Proudly Presents "The Model 1000"

"Industrial Strength"

Model 1000

Single Stage Disc Repair machine

- Best used for a quick polishing and buffing of audio CDs
- Buffs and polishes out scuffs and scratches in as little as 30 seconds
- Dry process - no water necessary

Model 1000 - Industrial Strength

Single-Stage / Manual Operation

Patented in 1995, Azuradisc's Model 1000 is the original and world's first scratch removal machine designed to repair the average scratched disc to a like-new condition. Instant set-up and quick operation; just plug in and you're ready to repair! Works on music CDs, CD-ROMs, and other clear disc media. This system utilizes a single-step process and is very inexpensive to maintain: a single polish with a single polishing pad lasts for thousands of repairs! If you are interested in quickly repairing high volumes of CDs, and other scratched clear discs, this is the machine for you! The Model 1000 is ideal for users who buy & sell used CDs or simply want to maintain their CD collection.

- **Recommended for "Clear Discs"**
- Single-Step process
- Optimal machine for frequent, daily use
- Great for quick polishing and buffing audio CDs
- Best for users who buy & sell used CDs or want to maintain a disc collection

- Buffs and polishes out scuffs and scratches in as little as 30 seconds
- Minimal manual labor
- Safe: No harmful chemicals or hazardous fumes
- Easy clean-up
- Comes with supplies to repair 3000 CDs
- No tools needed
- Adjustable pressure to suit your needs

Item # BIB 00106 0

Dimensions: H15" x D15" x W17" 46 lbs
Metric: H 38.1cm x D 38.1cm x W 43.2cm 20.9kg
Power: AC 100-120V

What the machine uses:

The Model 1000 uses a single polishing element with our specially formulated polishing compound. The process does not require water.

Disc Care

Recommended to maintain clean discs

Need to remove fingerprints from a disc? Each machine comes with a sample of our popular spray cleaner and wiping cloths for fast, easy clean up of oily or dirty discs.

Spray Cleaner

Wiping Cloth

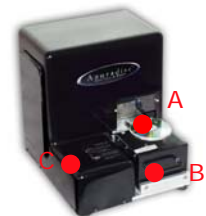

How the machine works:

The Model 1000 uses a high speed, dry process with one polishing element to remove fingerprints to light abrasions on any 5", clear media CD or CD-ROM. The specially formulated polishing compound lubricates the process to keep the disc cool without using water. It is recommended for use with 5", clear media.

Features

- A Powered Turntable
- B Sliding Load Tray/ Handle
- C On-off Switch
