

# The Model 1600

Deep Scratches and Gouges: No Problem!

- Repair all types of CD format; anything from audio CD's and CD-ROM's to DVD's and Video Games.
- Up to 6 micro-abrasive levels available to repair anything from a few light scratches to heavy gouges.
- Uses a wet process for a perfect finish--no special hook-ups required!

The Model 1600 uses a wet process with up to six different levels of micro-abrasives and polishing to clean discs, remove light abrasions, deep scratches or even intentional gouges, making it the machine with the widest repair range on the market.

Need to remove only fingerprints?  
Simply run Stage 1 for 30 seconds  
and you're done!  
The Model 1600 is designed to repair  
all depths of scratches quickly and efficiently.

Disc Care & Repair

# Model 1600 - The Money Maker

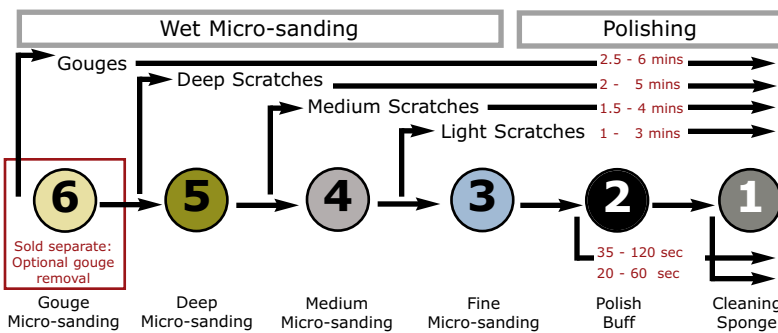

## Multi-Range / Semi-Automatic

The Model 1600 is designed to be the complete solution for any disc repair situation from the independent video store that needs to quickly maintain their library of rental discs, to the high-volume used music retailer who is buying hundreds of scratched discs per week, resurfacing them, and reselling them for huge profits. Great for someone who wants to make money offering a disc repair service to the public or use it to increase store traffic, this machine is the all-in-one answer for everyone.

- Earn up to \$30,000 per year by offering a disc repair service to the public
- Pays for itself quickly by restoring damaged inventory
- Use the machine to promote "Guaranteed Skip FREE Rentals"
- Buy scratched discs, repair and resell them for up to 500% mark up
- Increase your profit by selling a 6-month Scratch Protection Warranty for an additional charge
- This machine does quick maintenance polishing or deep scratch repair to earn extra money
- The least expensive and fastest all-in-one scratch remover & polishing machine
